

Staged consent check sheet

Pre application SR <i>To be completed by WCC</i>		Receiving Officer <i>To be completed by WCC</i>	
--	--	---	--

Project details

Project type *i.e. retail, office, apartments, hotel, car park or mixed use*

Total project cost \$

Confirmation of the project estimate will be required from a registered Quantity Surveyor

Project description

Address

Applicant

Owner

Architect

Structural Engineer

Fire Engineer

Services Engineer

Q.S./Project Manager

Façade peer review

Structural peer review

Other

Will you be applying for a PIM? Yes No

If yes, will it be a single application covering the whole project or multiple applications for separate stages?

Is there a Resource Consent for this project? Yes No

If yes what is the SR number?

Will a CPU be required? Yes No

Proposed stages

Number of proposed stages

Within the below table, please confirm in which stages the following information will be submitted:

- The fire report
- Any elements of structural engineering
- The external envelope, cladding, roofing and weather tightness details
- Services
- Specialist reviews producer statements (PS1/PS2)
- Accessibility report

Confirm approximate time frames. WCC recommend not too much of a time lag between stages. Please be aware building codes & standards can change between stages. This needs to be factored into time frames and staging.

Please also note that all stages should be able to independently receive a CCC. No existing stage should rely on works from a future stage to achieve compliance.

Stage	Description	Estimate of cost for each stage	Approximate date for submission of consent
	Specialist input included in this stage		
	Specialist input included in this stage
