Dear Recipient

Western Treatment Plant Resource Consent Applications Consultation

I am writing on behalf of Capacity (Wellington Water Management Limited) who are responsible for managing water and wastewater for the Wellington City Council and Hutt City Council.

Wellington City Council (**the Council**) currently has four resource consents relating to the operation of the Western Wastewater Treatment Plant in Karori. These consents are due to expire in mid 2006.

The Council has begun work on the application process to replace the four consents and is seeking feedback from you.

Later in the year the relevant resource consents will be applied for and you will have a further opportunity to become involved if you would like to make a submission as part of the notified resource consent process.

I have enclosed a copy of Western Wastewater Treatment Plant Renewal of Resource Consents Scoping of Issues and Options. This paper outlines the issues and options for seeking the new consents and the areas the Council is particularly interested in receiving feedback on.

Noreen Barton of Environmental Management Services (EMS Ltd) is working closely with Capacity on this project and is managing the consultation process which is now underway. If you have any feedback, could you please provide it to Noreen Barton by **Wednesday, 28 September 2005**:

Noreen Barton
EMS Limited
4 Highbury Road, Kelburn, Wellington
Tel +64 (04) 973 0097 Email noreen.barton@emslimited.co.nz

If you have any questions please feel free to contact me or Noreen Barton directly.

Yours sincerely

Kevin Robertson
