| 1 | Frances Williamson | 16/07/2007 | I | | <p>1. There is no need to redesign Frank Kitts Park. It is attractive and works well as it is.2. To spend money on a redesign would be a total waste of ratepayer money, particularly when there is a serious cash flow problem on waterfront projects.3. Frank Kitts Park is not a suitable site for a Chinese Garden. The Chinese Garden should be sited on Waitangi Park as originally planned.</p> | No |
| 2 | Alexia Pickering | 18/07/2007 | I | | <p>The Access Route to and from the City to Sea bridge begins at Civic Square; Aesthetically the City to Sea bridge has been enhanced with its Para Matchett design; Accessibility - A lot of people currently use the wide ramp that leads towards Frank Kitts Park. Unfortunately it does not lead in the direction of Te Papa. Currently this journey is steps only unless you take the longer journey provided by the ramp; Current bridge appears incomplete; The proposed new bridge by WCC would require a very long ramp so this is why steps have been introduced at the end by the designers; This design has a number of negatives;</p> <p>Potential issues with the heights of both bridge proposals; Any new bridge would need to meet requirements under Building Act 2004; It should be less costly if the proposal for a new pedestrian bridge was abandoned and instead the current City to Sea bridge extended - This simple and less costly solution would provide access to everyone regardless of the level of their mobility.</p> | Yes |
| 3 | Richard Byrne | 1/08/2007 | I | | Pedestrian Flow - encourage use of waterfront pedestrian | Yes |

However, with the exception of buildings, all other features along the waterfront are two-dimensional. 3. Reasoning for this is that 1) At a time when New Zealand is trying to combat obesity, the removal of sporting facilities within the city is sending a message that WCC believes more in dollars than the wellbeing of it's citizens; and 2. Consider current situation denigrates the 'look' of the waterfront.</p> <p>2. No further new buildings should be allowed to exceed the existing approximately 2 storey height of buildings. There is a very limited number of open sunny spaces available down that end of town to enjoy. Please do not allow any further buildings as high as the Meridian one. | 274 | Alana Bowman | 10/08/2007 | I | | Overall the plan assumes that something must be done with the land that is currently "undeveloped" on the harbour. Proposal to rearrange Kitts Park is an unnecessary expense. Chinese Garden should not be squeezed into the very limited space of Kitts Park. Taranaki Street Wharf and lagoon are fine -leave this space alone. The financial structure proposed is speculative, as was the funding structure that allowed the expenditure of \$15M before the end of the 07/08 fiscal year. No allowance has been made for delays or litigation possibilities. The effects on the yacht harbour are not described in the plan yet. The Council has failed to provide more than a pose of transparency or community engagement - the OPT decision was made behind closed doors. I and a lot of others would support the waterfront changes as long as the Council Support our needs. | No |

| 639 | Peter Smith | 13/08/2007 | I | | It would be a great shame if sport in the CBD ended, site 10 is a great place to move it to | No |

| 641 | Sharne Campbell | 13/08/2007 | i | | Please consider site 10 as an option for indoor sports to replace shed 1 and 6 | No |
| 642 | Peter J Graham | 14/08/07 | I | | Is clear that WWL are facing a mountain of debt - significant part of income stream is subject to considerable uncertainty. WWL must act responsibly and prudently. Must stop, not start or commit money to projects which it can without occurring penalties. These include FKP, planning for Taranaki St ad Lagoon and bridge extension, construction of Wharewaka and further work relating to TSB arena. CG should be at Waitangi park, FKP not appropriate place for it. | No |
| 643 | Chris Ballantyne | 10/08/07 | I | | Keen user of current indoor sports facilities at shed 1. Any development should incorporate such a venue within CBD. Ground floor of site 10 seems good spot. | No |
