They reinforced that the group supported effective public transport strategies, the principles of the New Zealand Urban Design Protocol and robust and transparent Council processes. The group noted their opposition to the proposed 'Adshel' bus shelters due to their impact on the city streetscape, the inadequate shelter they believe they provide and the appropriateness of the placement of some advertising material. They stated that they could not see the relationship between implementation of the bus shelters and the NZ Urban Design protocol and questioned the Resource Consent processes through which the bus shelters were being dealt with. Ms Calvert and Mr Beedall also noted the support for the Residents' Action Group outside the Ngaio/Khandallah area and foreshadowed a petition that they would be presenting to the Council with respect to the bus shelters which has already collected over 1000 signatures.
