

2010/11 Activity Programme

Over the next few pages, you'll find information about our plans for 2010/11.

Our work is divided into seven strategic areas:

- **Governance** – information, consultation and decision-making, and engagement with Māori.
- **Environment** – gardens and beaches, green open spaces, water, wastewater, waste reduction and energy conservation, environmental conservation attractions, and the quarry.
- **Economic development** – city promotions, events and attractions, and business support.
- **Cultural well-being** – galleries and museums, heritage, community arts and cultural support, and arts partnerships.
- **Social and recreation** – libraries, recreation facilities and programmes, public health and safety, housing, and community support.
- **Urban development** – urban planning and policy, building control and facilitation, development control and facilitation, earthquake risk mitigation, and public spaces development.
- **Transport** – transport planning and policy, transport networks, and parking.

In each chapter you'll find information about the work we do, the reasons for doing that work and/or our goals in relation to it, areas of focus for 2010/11, capital and operational costs, and our performance targets (i.e. our targets for quantity, quality and breadth of service).

The performance measures outlined in the plan broadly maintain existing levels of service or show a gradual improvement on previous years unless otherwise stated.

We've done our best to provide information that is meaningful and relevant, and to present this information as clearly as possible, so that you – Wellington's residents – can be informed about our work programme for 2010/11.
