

Application form for sustainable energy grant

1. Building consent information

Have you applied for a building consent?
(If no, you are not eligible for the Sustainable Energy Grant)

Yes No

Is your building consent for a residential building project?
(If no, you are not eligible for the Sustainable Energy Grant)

Yes No

Building consent reference number: _____

2. Contact details of grant applicant

First names: _____

Surname: _____

Mailing address: _____

Address of building work (if different to above): _____

Email: _____

Day phone number: _____ Mobile phone: _____

3. Contact details of payee

The Council will only pay the grant to the individual or company that paid the building consent deposit fee.

tick here if the payee details are the same as grant applicant

First names: _____

Surnames: _____

Mailing address: _____

Email: _____

Day phone number: _____ Mobile phone: _____

3. Financial details

Please attach a bank deposit slip to your application.

Are you GST registered? Yes No

If yes, what is your GST number: _____

4. Type of project

Are the sustainable energy solution(s) identified in section 5 going to affect more than one residential unit? Yes No

If yes, briefly describe the nature of your project and how many units will be affected (examples: five unit town-house development with centralised solar hot water system; 40 unit apartment complex with photo voltaic system; 20 home housing development with individual solar hot water systems on each house):

4. Type of project continued ...

5. Description of building work

Please indicate which of the technologies you plan to install as part of your building works.

- solar hot water heating system
- photo voltaic electricity system
- hot water heat pump
- micro-hydro electricity system
- micro-wind electricity system
- wood burner stove or wood pellet stove with a "wet back" water heating system

6. Central Government Subsidy

If you are installing a solar water heater or a hot water heat pump, check to see if you are eligible for the Government grant of \$1000. Go to www.eeca.govt.nz or call 0800 358676 for more information.

7. Terms and conditions

1. Grants will be subject to the availability of funds in any particular financial year.
2. One grant only will be considered for each project.
3. The Sustainable Energy Grant application must be submitted with a building consent application.
4. Applicants must list the approved Sustainable Energy Grant technologies in the 'Description' section of the building consent application. It is helpful to list any relevant product, design or installation standards that adhere to the applicants' technologies.
5. Successful Grant applicants must pay a deposit fee upfront for their building consent.
6. The Sustainable Energy Grant application will receive final approval when the building consent is issued for the work.
7. The Council will not accept Sustainable Energy Grant applications after the building consent is issued for the building work.
8. A Code of Compliance Certificate (CCC) must be issued by the Council for the building works in order to receive the grant funds. This CCC must contain reference to the approved sustainable energy technology. Successful grant applicants will receive a grant of \$300 (plus GST if applicable) for individual residential dwellings. The grant amount for multi-unit residential projects will be determined on a case by case basis and the standard formula is \$300 per affected residential unit to a maximum of \$3,000.
9. The Council will only pay the grant to the individual or company that paid the building consent deposit fee.
10. The grant funds will not be issued by the Council if the applicant amends their building consent resulting in the removal of the relevant sustainable energy technology from the building work or if the applicant fails to install the technology.
