

Roading Maintenance Programme 2011/12

Each year we check the condition of all the city's roads and footpaths and compile a prioritised list of those needing treatment. Where possible busy roads are targeted in January when it's generally quieter and less disruptive to businesses and residents. No programmed work is carried out in the CBD and suburban shopping areas in December. If the footpath/ kerb and channel needs maintenance, this will be done before the resurfacing starts. The majority of resurfacing work is expected to be completed by April 2012, which will be followed by planned footpath work.

If your road is on the list, you'll receive a letter from us nearer the time detailing the hours and duration of the work. Although we do our best to keep to the programme, the timing may change due to emergency repair work or other urgent jobs. We will update this list on a regular basis.

For more information please call the Council on 499 4444.

Road Name	From	To	Project Type
