

Application to connect to Wellington City Council's public drainage network

From 1 July 2009, all contractors who need to connect to Wellington City Council's public drainage network must complete this form and take it to Wellington City Council's City Service Centre in Wakefield Street with payment of \$140 (including GST). You need to fill out a form for each connection.

Conditions

Please note the following conditions of connection to a Wellington City Council public drainage main.

- You must provide at least one full working day's notice before the intended work is due to start.
- The excavation must be completed before Wellington City Council staff arrive to carry out the drainage connection work.
- The excavation must be large enough to allow the connection work to be done and **must** meet the Department of Labour's approved code of practice for safety in excavation and shafts for foundations in the Health & Safety in Employment Act 1992.

For more information, call CitiOperations on 383 7640.
