Signature of applicant _____ Date _____

Wellington City Trade Waste Bylaw 2004

The Wellington City Council makes this Bylaw under the authority of, and in accordance with, the provisions of the Local Government Act 2002 and the Bylaw Act 1910.

The purpose of the Bylaw is to control trade waste discharges into the wastewater system to protect:

- sewers, pumping stations, wastewater treatment plants and other related wastewater system structures
- workers operating in or with the wastewater system
- the environment by ensuring the necessary resource consents are met.

The Bylaw has set the limits on different physical and chemical characteristics of wastewater. A list of common characteristics, as well as their limits and charges for consent holders, is below:

Limits on different wastewater characteristics under Wellington City Trade Waste Bylaw 2004.

Characteristics	Limit
Flow	5m ³ per day
pH value	6–10
BOD(5)	600g/m ³
Suspended solids	600g/m ³
Oil and grease	100g/m ³

Consent fee is based on wastewater characteristics and flow.

Risk category	Fee
Application	\$180
High risk	\$1800
Medium risk	\$895
Low risk	\$300
Minimal risk	\$130
