Information which must be submitted with this application

Attach **two copies** of the following information to support this application, to satisfy the requirements of Section 88(2) of the Resource Management Act 1991 (RMA) and rule 3.2.2 in the District Plan. If all of the required information is not provided we may be unable to accept your application and it will be returned to you. Note: all plans must be to a measurable scale.

Permitted activities existing use rights

Where relying on permitted activities and/or existing use rights, these must be supported by:

1. sufficiently detailed plans; and
2. a compliance schedule and/or other supporting information that explains how the activity complies with the requirements of the District Plan or demonstrates how existing use rights are retained.

Assessment of environmental effects (AEE)

If you don't provide an AEE the Council cannot accept your application. The AEE should discuss all the actual and potential effects on the environment arising from this proposal. The amount of detail provided must reflect the nature and scale of the development and its likely effects. For example, if there are major effects arising from the proposal, a detailed analysis and discussion of these effects should be included in the AEE. You may have to provide information from experts such as an acoustic consultant or traffic engineer. If the effects of the proposal are very minor then a less-detailed AEE can be submitted.

For more information see clauses 6 and 7 of the Fourth Schedule of the Resource Management Act 1991, which includes information requirements and lists the matters to be addressed in an AEE.

Part 2

- I attach an assessment of the proposed activity against the matters set out in Part 2 of the Resource Management Act 1991.

Other relevant provisions

- I attach an assessment of the proposal against the provisions of any documents referred to in s104(1)(b) if relevant. Refer to clause 2(2) of Schedule 4. Please note that these documents include:
- National Environmental Standards and other regulations
 - National Policy Statements
 - the NZ Coastal Policy Statement

National Environmental Standard (NES) for Assessing and Managing Contaminants in Soil to Protect Human Health

This site may be subject to or covered by the NES for Assessing and Managing Contaminants in Soil to Protect Human Health Regulations 2011. This is determined by reference to the Hazardous Activities and Industries List (HAIL) which identifies those activities and industries which are more likely to use or store hazardous substances and therefore have a greater probability of site contamination. A full list can be found on the Ministry for the Environment's website www.mfe.govt.nz/issues/hazardous/contaminated/hazardous-activities-industries-list.pdf

Has the piece of land subject to this application been used for (*including its present use*), or is it more likely than not to have been used for an activity on the HAIL?

Yes No

If 'Yes', and your application involves subdividing or changing the use of the land, sampling or disturbing soil, or removing or replacing a fuel storage system, then the NES may apply and you may need to seek consent for this concurrently in your application.

Site visit requirements

In order to assess your application it will generally be necessary for the planning officer to visit your site. This typically involves an outdoor inspection only, and there is no need for you to be home for this purpose.

Are there any locked gates, security systems or anything else restricting access by Council staff? Yes No

Are there any dogs on the property? Yes No

Do you require notice prior to the site visit eg if the property is tenanted? Yes No

Are there any other health and safety issues Council staff should be aware of before visiting your site?
If so please provide details so Council staff can take the necessary precautions:

Consent would be necessary if access to the roof was required. Contact: Keith Mackenzie (04) 494 9974
